

Nabtesco Corporation

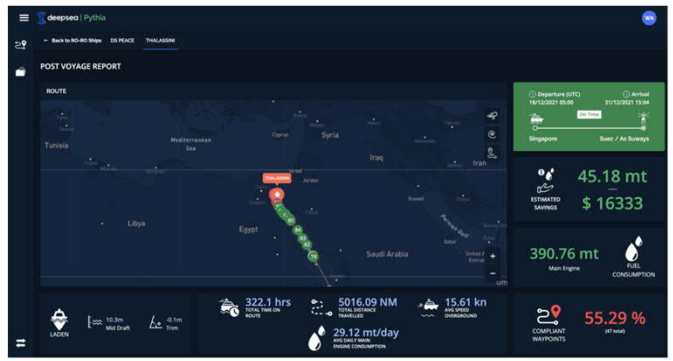

Nabcas / DeepSea Pythia

Pythia – Performance routing AI-based optimal route planning

Simply enter the ETD/ETA

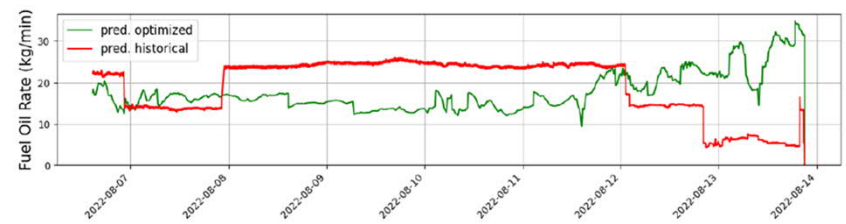

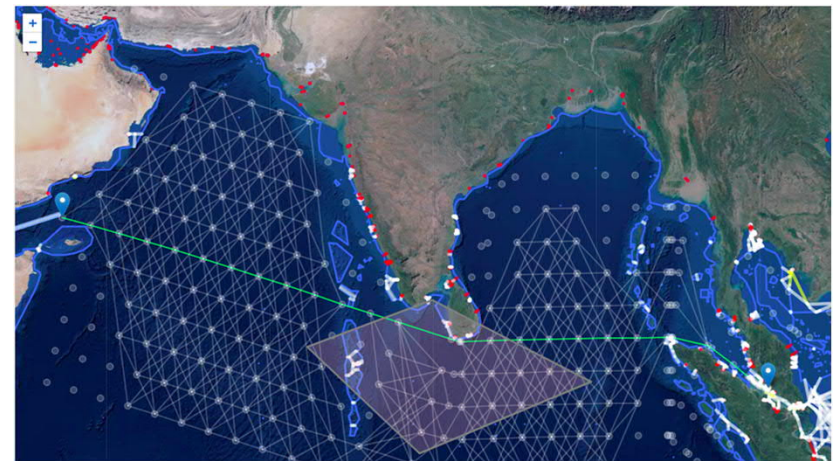

- AI calculates hull fouling status and fuel consumption.
- Pythia proposes a **route and speed plan** with **the lowest fuel consumption!**

Reports on fuel consumption/CO2 reduction for each voyage

- Confirm estimated impact analysis with simulations before introduction.

Fuel consumption reductions of 10% or more!

Potential client industries:
Shipper, Charterer, Operator, Owner
